Investment Policy

The investment objective of the AMC is to generate above average capital gains in the medium and long term by investing crypto assets. No guarantee can be given that the investment objective will be achieved. The value of the units of the AMC and the returns may increase or decrease. To attain the investment objective, the AMC invests in assets predominantly in one or several cryptocurrencies or token that represent a cryptocurrency or crypto assets. Tokens are only considered, if at the time of investment, they are valued as being of high quality, sufficiently “investible”, and likely to continue to follow a positive value trend. The investment manager may also choose to invest in crypto futures. The aim is to provide investors with access to selected quality projects in the most innovative ecosystems in the infrastructure space like: Polkadot, Ethereum, Chainlink, Uniswap and others.
